

NORD Center of Excellence for Rare Disorders at Boston Children's Hospital

ROSALIND FRANKLIN RARE DISEASE GRAND ROUNDS

CME Course 220901-RSS

Thursday, April 18, 2024 | 12:00pm-1:00pm EST | Folkman Auditorium

Dr. Al-Hertani is the Harvey Levy Endowed Chair in Metabolism and the Director of the Metabolism and Lysosomal programs at Boston Children's Hospital. She received her Doctor of Medicine degree from Dalhousie University in Halifax, Canada, followed by the completion of a Clinical Genetics residency at the University of Ottawa and a Biochemical Genetics fellowship at the Hospital for Sick Children and the University of Toronto. Dr. Al-Hertani's career in the field of Clinical and Biochemical Genetics has spanned two countries, Canada and the US, leading to her special interest in how different healthcare delivery models impact access to care and therapies, specifically for patients with inborn errors of Metabolism.

**“TALES FROM THE TRENCHES OF AN INBORN ERRORS OF METABOLISM CLINIC;
AND WHERE ARE WE GOING FROM HERE?”**

LEARNING OBJECTIVES

- Overview of the past and current landscape of the field of Inborn Errors of Metabolism (IEMs).
- Understand the importance of leading IEMs expertise in Rare Disease Centers of Excellence.
- Interactive discussion with the audience on how IEM experts can design the future path of the field, as it evolves in the next 5-10 years.
